CATHERINE IS HONORED ON MOTHER'S DAY

Mary Bear (right) tells the congregation what Cathy's life and leadership in Mexico have meant to her and admired Cathy for being a mother to so many children that didn't have a mother along the years. Mary studied in our Bible School and worked in the Children's Home office. She married Danny Bear and they are pastoring the Church. Cathy was the Director of the Children's Home in Monterrey many years. She is greatly loved by the children and highly esteemed by her co-workers. I told the people that I deeply appreciated her help and partnership throughout the many years of ministry in Mexico and our 52 years of marriage. Our son Wyman Leroy spoke of his mother and said that she left a great impression on the lives of hundreds of children, neighbors, and co-workers in Mexico, and espe-

cially on her own two children both of which are still living in Monterrey Mexico with their families. I added that the people see her sitting in her wheelchair but that she is still a strong lady and worker in the ministry.

FEEDING NEEDY FAMILIES

We continue to feed hungry families here in south Texas. This is a very needed area. Many families have a hard time. We give them, as we are able, vegetables, can goods, meat, beans, and rice. Your financial support helps us to reach out to these families.

SABINAS CHILDREN'S HOME

Ana Laura, Citliana, Stephanie, and Leyver were born in a small rural village in the southern Mexican state of Chiapas. Life is hard in this extreme southern part of Mexico. There is little industry and jobs are hard to get. Most people here live on farming but their farms are very small. Their mother and father were fighting often and eventually the marriage broke up. The father left the mother with four children and ran off with another woman then later he got into trouble and is now in prison. The poor mother had to work at housecleaning on two shifts daily to be able to feed and support her children. She is a Christian who knows how to pray. Her prayers were answered the day she was invited to move with all her children to the Children's Home in Sabinas Hidalgo in northern Mexico. It was a long trip of some two thousand miles but she made it with her four children. She had been accepted as a staff worker in the Sabinas Hidalgo Children's Home and they would accept her children also. She could stay with them and know that they would have a good home. And she could work for the Home and for the Lord who had always been good to her. Help to support this home. Be a partner of this Ministry.

MINNIE AND GARY SANDMANN

We rejoice over the letter we received from Minnie, she and her husband are doing missionary work in Mexico. They just established a new church in the state of Guerrero in southern Mexico. One of their new converts was a leader of witchcraft activity in the little. Read the whole story in the next issue of this Newsletter.
